

# Centre of Modern Languages

## IMPORTANT NOTES

If for one subject you can find several different types (lecture, practice, laboratory) of courses then please choose one and only one course from each type in order to be able to perform the subject's requirements successfully. Civil Engineering courses are on the website separately. Courses chosen from the offer of Faculty of Civil Engineering will be checked and arranged individually by the departmental coordinator.

Subject code	Subject name			Requirement	ECTS credit
BMEGT61A051	German for Engineers - B2			Mid-semester mark	2
Course type	Course code	Course language	Timetable information		
Practice	k414_nm	German	THU:14:15-16:00;		
<p>Subject name German for Engineers Subject code(s) BMEGT61A051 Lesson type, Lessons per week Seminar 2 lessons (90 minutes) once per week Type of Mark mid-semester mark Number of Credits awarded 2 credits Recommended Entrance Requirements Common European Framework of Reference for Languages level B2 (intermediate), or minimum 75 TOEFL IBT score or similar language knowledge It is recommended that students take a level test (available in different languages on the www.inyk.bme.hu website) to determine their language level and choose a suitable course. Programme aims By the end of the course the student will have the language skills and will use lexical resources at B2 level to allow him/her to carry out tasks in the target language in the course of his/her studies and work. Competences Oral comprehension/ Speaking skills: Students will be able to use understand and take notes on the main content points of complex texts related to their professional fields, and to contribute to professional discussions. They will be able to express and justify their opinions on technical topics. Written comprehension/Written composition: Students will be able to comprehend short texts of a technical nature in their entirety, and to extract the main points from longer texts, and to produce texts in the target language or their native language synthesising two or more sources of information. Topics covered Technical style Definitions and Categorizing The shapes of objects and the properties of materials Describing machines, instructions for use Spatial relations Describing processes Cause and effect Comparisons; describing and interpreting data in tables and graphs Changes, trends Problems, solutions Requirements for participation in the lessons "If a student is absent from more than 30% of the total number of lessons of seminars [...] then he/she cannot obtain the credits of the subject." Code of Studies and Exams, Article 14 (3) Subject requirements 1/3 – the student's performance during the semester 1/3 – mid-term test (based on the material taught during the course, max. 45 minutes) and an individual talk or a translation 1/3 – 90-minute end of term written test (reading comprehension and written composition)</p>					
Subject code	Subject name			Requirement	ECTS credit
BMEGT61A061	Communication skills - German - B2			Mid-semester mark	2
Course type	Course code	Course language	Timetable information		
Practice	k210_nkk	German	TUE:10:15-12:00;		
<p>Subject name Communication Skills - German Subject Code(s) BMEGT61A061 Lesson type, Lessons per week Seminar, 2 lessons (90 minutes) once per week Type of Mark mid-semester mark Number of Credits awarded 2 credits Recommended Entrance Requirements Common European Framework of Reference for Languages level B2 (intermediate) or minimum 75 TOEFL IBT score, or similar language knowledge It is recommended that students take a level test (available in different languages on the www.inyk.bme.hu website) to determine their language level and choose a suitable course. Programme aims By the end of the course the student will have a linguistic skills and knowledge of language functions at B2 level which will allow him/her to communicate effectively in spoken and written form in situations which arise during his/her studies and professional life. Competences Oral comprehension/ Speaking skills: Students will be able to use various techniques to communicate with speakers of the target language with suitable efficacy and to work together in teams purposefully. Written comprehension/Written composition: Students will be able to organise and accurately convey the information content of written texts, and to write texts related to work and study abroad. Topics covered Communication situations, Successful communication Information gathering, processing and organisation Taking notes and making outlines The structure, vocabulary and preparation of spoken presentations Conveying and relevantly using information Writing summaries and reports Making and evaluating oral presentations Job seeking, applications for scholarships and grants, CV and cover letter writing, writing formal letters Job interviews Expressing and justifying opinions, persuading Simulated debates Requirements for participation in the lessons "If a student is absent from more than 30% of the total number of lessons of seminars [...] then he/she cannot obtain the credits of the subject." Code of Studies and Exams, Article 14 (3) Subject requirements 1/3 - the student's performance during the semester (including assembling a semester file) 1/3 – presentation: to be given during term time; on a subject of the student's choice from the material covered during the lessons; may be done in groups 1/3 – 90-minute end of term written test (based on the material taught, which includes a cover letter writing task and other tasks) and an optional mid-term test</p>

<p>The interdisciplinary course aims to provide a comprehensive picture of Hungarian Culture through centuries to our times. In accordance with the students' academic profile special emphasis is given to Hungarian cultural heritage in different fields of science, engineering, and economics. Hungarian poets, writers, composers are also presented in their historical and social settings. Fieldworks of international students with Hungarian counterparts help deeper</p>			

understand the cultural environment they live in.
